

Europa is an offshore web hosting provider with servers in several countries in the Asia-Pacific region. We provide web hosting and domain registration services to online businesses and individuals, with an emphasis on freedom of speech, security and your right to privacy.

- We don't require or store any of your personal details apart from an email address we can use to contact you
- Fast, bullet proof offshore web servers in Hong Kong and other locations
- Many payment methods are accepted including Cash, Western Union, Paypal and Credit Cards
- Offshore domain registrations in India with private WHOIS details
- We also provide offshore mail boxes to anonymise your incoming and outgoing physical mail
- You can communicate with us securely using PGP
